10 Questions To Ask Before Finalizing Your Tech Budget

TORCH networks

What you're spending on IT today tells only part of the story. Ask these 10 questions to get a clearer picture of what could impact next year's budget.

1. What technology is likely to **need replacing next year?**
2. Which software licenses or subscriptions **are due for renewal?**
3. How will your hiring or growth plans **affect your technology needs?**
4. Are you paying for software your business **no longer uses?**
5. Which systems are becoming **more expensive to maintain?**
6. Are there any **major technology projects** on the horizon?
7. What business changes could **affect your IT spending** next year?
8. Which technology investments **can wait, and which shouldn't?**
9. **How much flexibility** have you built in for the unexpected?
10. Have you asked your IT provider about any **technology costs you may have overlooked?**

Found a few questions you couldn't answer? **Let's fill in the gaps before you finalize next year's IT budget.**
